## Fusion ARPInism

Sample Library with Program Presets Bank for Alesis Fusion.

This sound collection provides the essence of 5 famous ARP instruments which are real legends and wrote music history. All sounds were programmed on the original instruments and then carefully sampled for finest sound quality. This handpicked selection offers the typical sounds these instruments are famous for. And a decent Controller Assignment system allows a true rendition of the original performance control.

- **ARP 2600** duophonic semi-modular synthesizer
- **ARP Odyssey** duophonic synthesizer
- **ARP ProSoloist** monophonic Preset synthesizer
- **ARP Quadra** monophonic and para-polyphonic ensemble synthesizer
- **ARP Omni** string synthesizer

Each Program Preset provides the sound with smart and standard Controller assignment which is the same for the most Program Presets.

70 sample instruments provided with 140 ready-to-use Program Presets.

### **Controller Assignment for the Program Presets\*:**

Knob 1: Filter Cutoff (= Tone Brilliance)  
Knob 2: Filter Resonance (= Tone Color)  
Knob 3: ENV 1 Attack (= Initial Tone Response)  
Knob 4: Reverb Intensity

\* = a few exceptions with different Controller Assignment

### **Instruments abbreviation:**

2600 = ARP 2600  
Ody = ARP Odyssey  
QD = ARP Quadra  
ProS = ARP ProSoloist  
Omni = ARP Omni
