Fusion taped

Sample Library with Program Presets Banks for Alesis Fusion 8HD/6HD.

The pre-sampler instruments Orchestron, Mellotron and Chamberlin in one soundbank. Plus brandnew samples created with the old technology: Recorded through a tape machine with limited frequency range and a little jitter to get the typical LoFi sound but with new sounds.

It comes with 40 multisamples taken from the original instruments and provides the rough and characterful sound of this legends with 40 ready-to-use Program Presets, perfectly made for instant use on stage and for studio recording.

Sophisticated Controller programming for Control Knobs 1-4, S1 and S2 Switches, Trigger Buttons T1-T4, Modulation Wheel, Pitch Bend.
