Kronos Weltreise

Sample Library with Program Presets Bank for Korg Kronos.

The **Cool Keys 60s & 70s** is a unique sample library of it's own. Besides the famous Rhodes and Hammond there were some very cool keyboards played by many musicians back in the 60s and 70s. Here they are: Hohner Electra-piano, Pianet T (amped) and String Melody II. The string ensembles ARP Omni, Elka Rhapsody 610 and Crumar Performer. And the organ section with the Lowrey Theatre model, Farfisa Compact, Vox Continental V301 and Philicorda GM751.

This useful instruments collection is rounded up with a few others: Siel Cruise Brass and Strings, Yamaha CE20 Harpsichord and finally the Yamaha SK30 organ.

A categorized organisation of the 90 Program Presets is the convenient sound catalog with single and layered instruments. Together with a decent Controller programming for Control Knobs 1-8, S1 and S2 switches, Ribbon, Joystick for each Program Preset, plus a ready-to-use Drum Pattern and one KARMA setting.
