Kronos Famous Vintage Stringer

Sample Library with Program Presets Bank for Korg Kronos.

The **Famous Vintage Stringer** provides the 4 most sought after *String Ensembles* from decades ago: Solina String Ensemble, Godwin Symphony, Farfisa Polychrome and Elka Rhapsodie. Now you can add these timbres conveniently to your music and it will be a sound time ride to back then right away. Also those instruments are still useful for several contemporary musical styles like Progressive Rock, Gospel, Country, Metal, Pop and many others as the sound of the Stringers is even versatile!

With a set of 32 multisamples the original instruments are perfectly represented, several layer sounds ready-to-record are included.

As a categorized organisation the 45 Program Presets are provided as single and layered instruments. Together with a decent Controller programming for Control Knobs 1-8, S1 and S2 switches, Ribbon, Joystick for each Program Preset.

This decent Controller Assignment system allows a perfect performance control without any learning curve. The standardized Controller programming for Control Knobs 1-8, S1 and S2 switches, Ribbon, Joystick works identical for each Preset.
