Kronos Idiophonics

Sample Library with Program Presets Bank for Korg Kronos.

Vibraphone, Marimba, Xylophone, Tubular Bells – all these instruments are called Idiophone. This sound collection provides these mallet and chromatic instruments as well as Glasses, Bowls, Tubes, Toy Piano, Steel Drum, Kalimba and many more.

Typical sound character elements are a strong attack, a fading decay and harmonics often with 5th or even unusual interval.

Over 40 sample instruments provided with 50 ready-to-use Program Presets.

General Controller and FX Assignment

Each one of the 50 Program Preset provides the sound with smart Controller assignment.

Most important is the Ribbon where the Brilliance of a timbre is always under your instant control. The default middle position is the average setting and a slide to the right is giving more treble to the sound, to the left less brilliance.

Moving the Joystick down allows to shorten the decay, up adds vibrato to the sound. SW1 transposes one octave down while SW2 locks the currently selected Ribbon position.

Default Program Preset bank: location User-GG.

Program Presets Content

- 000 Vibraphone xl
- 001 Marimba dyn
- 002 Steeldrum
- 003 Glass 1
- 004 700 Temple Bells
