Kronos My Minimoog Classics

Sample Library with Program Presets Banks for Korg Kronos.

The **My Minimoog Classics** series provides all the typical sounds of the most famous monophonic synthesizer. This sample library is the essence of years of working with this instrument and sampling the sounds with care. Although the Minimoog only has a 3 Octave keyboard many multisamples of this library are created for 88 keys instruments with all the notes needed for the lowest and most upper range. A decent Controller

Assignment system allows a true rendition of the original performance control. So this all literally turns your Kronos into a Minimoog.

Packed in the 4 titles "Best of Vintage Keys 1-4", each with the focus on 7 instruments. Available separately and as complete bundle. Sophisticated Controller programming for Control Knobs 1-8, S1 and S2 switches, Ribbon, Joystick

Each Program Preset provides the sound with standard Controller assignment which is the same for the most Program Presets, plus a ready-to-use Drum Pattern and one KARMA setting.

General Controller and FX Assignment

Use following Controllers for volume expression, tone color variations, transpose effects, envelope shaping, oscillator octave shift, instruments parameter adjustment, effect intensity, pitch bend effects and more.

The Controller Assignments of the *Classic* soundbank are setted as category standard to allow the same handling for the all these sounds of this Program Presets bank. The Controller Assignments of the *Modern* soundbank depends on the individual Preset and is different to the *Classic* soundbank.

Each Program Preset of the *Classic* soundbank provides the sound with this standard Controller assignment which is the same for the all Program Presets, plus a ready-to-use Drum Pattern and one KARMA setting.

SW1: Octave Down
SW2: Ribbon Lock
Ribbon: Brilliance (small amount)
Knob 1: Cutoff
Knob 2: Resonance
Knob 3: Envelope Intensity
Knob 4: Release Time
Knob 5: Attack Time
Knob 6: Decay Time
Knob 7: Sustain Level
Knob 8: Effects Intensity (FX Send 2)
Joystick forward: Vibrato
Joystick backward: Tone Modulation (repeat effect)
Joystick left: 2 semitones down
Joystick right: 2 semitones up
Aftertouch: Vibrato (small amount)

All Classic Presets are monophonic and some sounds are programmed with the typical Minimoog Glide effect (Portamento).
