Kronos RMk1 –Fender Rhodes Suitcase 73 Ralph Maten-

Sample Library with Program Presets Bank for Korg Kronos.

This is the right sample library w/Presets when you are looking for a Fender Rhodes electric piano with a fantastic and unique sound character. The original instrument owner Ralph Maten is a skilled pianist and maintained the Suitcase 73 I have sampled with the help of Jens Lüpke, who is a famous Fender Rhodes repair serviceman in Europe.

As a result this sample library comes with a 4-Velocity-Switch set of multisamples where nearly every single key is captured. Now the sample instrument sound is very close to the original instrument, which is recorded in a triple way: dynamic mic close, condenser mic near distance, built-in PreAmp line out.

The Program Presets soundbank provides 50 ready-to-use settings with several sample mappings, dynamic assignments and effects for lots of variations. They are perfectly made for instant use on stage and for studio recording.

The xxl version is the largest sample instrument with full original sound decay, the xs versions are smaller with fewer sample mapping and includes also additional short looped samples. The xs versions are also a great alternative when saving RAM memory space as they are way smaller than the xxl version.

Finally the soundbanks provide several interesting and useful layers and even experimental sound designed Presets.

Controller and FX Assignments, Drums and KARMA

All Program Presets are created with Controller Assignments and effects, Drums and KARMA.

RMk1 xxl Program Preset bank: location User-GG.

RMk1 xs Program Preset bank: location User-FF.
