Dream Imaginery

Sample Library with Program Presets Bank for NI Kontakt.

The **Dream Imaginery** provides the right atmospheres for film soundtrack, commercials, computer games, slide shows. Sonic scenes that highlight the visuals. Even audiobooks to inspire the spontaneous inner cinema effect. A great soundtool also for any other music production where atmos are on demand.

The most sounds are evolving and with long duration. Bizarre, unusual, scary, surprising, strange, funny – always with an interesting character to illustrate film scenes and pictures with a sonic feeling.

105 ready-to-use Presets, where the Pitch Bend range is always 12 semi-tones. Also, every Preset is assigned to the same Convolution reverb to allow an identical room atmosphere when using several Presets simultaneously.

Sample instruments content

2049

Amazonian
Arium 2
Arium 3
Arium 4
Arium high
Arium low

Backwards Chord 1
Backwards Chord 2
