Kronos Vintage Keys 1

Sample Library with Program Presets Bank for Korg Kronos.

This is the part 1 of the series that provides these ten Korg Vintage Keys:

- DL-50 Delta Strings Synthesizer
- ES-50 Lambda Polyphonic Ensemble
- PE-1000 Polyphonic Ensemble P
- PE-2000 Polyphonic Ensemble S
- Poly-800 Programmable Polyphonic Synthesizer
- PS-3100 Semi-Modular Polyphonic Synthesizer
- PS-3200 Programmable Semi-Modular Polyphonic Synthesizer
- SG-1D Sampling Grand
- EPS-1 Electronic Piano & Strings
- Symphony O3 Orchestra Module

90+ carefully produced multisample instruments and 128 Program Presets – an amazing 420 MB Sample Library for all fans of Korg instruments from the 70s and 80s!

The sample library comes with 25 ready-to-use Program Presets. This includes a Controller programming for Knob 1-8, S1 and S2 Switches and Ribbon.

Most important Controller assignment is the Ribbon: A slide to the left and the timbre will be a little softer and a slide to the right makes the sound more brilliant. If you want to fix such a momentary setting for a while you just need to push SW2 Switch. Also you can keep the SW2 Switch in ON Mode (LED lits) and change the timbre character by simply sliding a little more to the left or right on the Ribbon.

With SW1 Switch the sound will be tranposed one octave down which is a handy function for 61 and 73 keyboard versions.
