## Alesis Fusion New FM by kpr

Program Presets Bank for Alesis Fusion 8HD/6HD.

A Program Presets collection for all friends of sounds created with the Fusion's Frequency Modulation synthesis engine. Concept and realization by experienced sound designer Klaus P. Rausch it offers completely new and unheard sonic timbres provided with a sophisticated Controller programming for a easy-to-use performance.

The soundbank content covers the categories Percussives, Bell type, Bass, Lead, Pad, Synth FX and Special Sound Effects plus a couple of percussions.

- 128 Program Presets: Single instruments based on FM synthesis. Sophisticated Controller programming for Control Knobs 1-4, Modulation Wheel, Aftertouch, Pitch Bend.

## General Controller and FX Assignment

Use following Controllers for volume expression, tone color variations, transpose effects, envelope shaping, oscillator tuning, instruments parameter adjustment, sound crossfade blend, effect intensity, pitch bend effects and more:

Pitch Bend Wheel  
Modulation Wheel  
Knob 1  
Knob 2  
Knob 3

Knob 4  
Aftertouch  
T1 Trigger Button  
SW 1 Switch

In many cases the Controller Assignments are setted as category standard to allow a similar handling in the related category, sometimes not all of the listed Controllers are used for a Program.

## Data handling

To load the Presets data to the Fusion: Unzip the attached data. Create a folder for the soundbank on your computer desktop with the name "New FM by kpr", etc., drop the unzipped Program data into the folder and move it to the Fusion via USB or CF Card. Use the PDF docs for Presets archive purposes and consult the Fusion owner´s manual for references concerning data handling.
