Ensoniq VFX Presets by kpr

Program Presets Bank for Ensoniq VFX and VFX/SD Digital Synthesizer.

64 new Presets: Lead synths, bass, pads, percussives, typical 80s layers and ballad pianos. Mail data attachment product. Perfect for all stage and studio purposes, ready-to-use and produce.

Data handling

To send the Presets data to the VFX: Load the SysEx data file to your data submission software or the .mid file with the DAW and send it to the instrument. Be sure to backup your current internal sound data before submitting the new sounds.
